

POLiBOND

ACRYLIC SOLID SURFACE ADHESIVE

In Technical
collaboration with
CrossChem,
S. Korea

INTRODUCTION

Polibond Adhesive in technical collaboration with CrossChem Co. Ltd., S.Korea, a leading manufacturer of Acrylic Solid Surface Adhesives.

We are manufacturing Acrylic Solid surface Adhesives for OEM, Importers and Indian manufacturers.

We are developing complete range of color matching for all acrylic solid surface sheets,. High tech computer color matching technology is adopted to improve the product quality with new color development. In addition, we are providing quality consistency under the observation of our S.Korean experts,

In order to maintain the high quality of products, the whole process from polymerization to packaging is managed consistently. We therefore emphasize the environment-friendly nature of all ingredients in our products.
